The Pamplin S. C. A. also sent delegates to the S. C. A. Federation district meetings at Farmville and Appomattox.

Recent sales of interest to livestock owners were: Monticello Farms, Va., where 66 lots sold for a total of \$39,294, averaging \$594.2 head. . . the highest selling cattle east of the Mississippi.

Mills, Shorthorn herd, despatched in 1873; the spring sale of Aberdeen Angus at Staunton, where 40 head averaged approximately \$180, and 19 young bulls were placed on the State; the Shermans Valley Polled Shorthorn Breeders' sale at Winchester, where 39 head sold for \$145 each, and the Virginia Hereford sale at Blacksburg, which was the first Hereford sale in Virginia ever to bring a top price of \$1,100.

Two bull calves were sold at \$1,000 and up, and the quality of cattle consigned was considered comparable to any offered at auction in the Old Dominion. In spite of variations of breeding and type, 52 lots brought an average of \$306 at the latter sale.

Experienced cattlemen believe that prices of beef cattle will hold an upward trend for at least three more years, with the purchased business good for about a year longer. It seems wise to fatten poor producers, market them and put the money into good purebreds to insure a sound program for the period of low prices which will follow this cool period.

Sheepmen report a promising year with a fine crop of lambs this spring. Army orders for woolen cloth have raised the prices of native wool higher than it has been in the past five years. Many wool contracts have been offered at 45 cents per pound.
